HICKMAN, KY.,
FRIDAY, OCT. 10, 1891.

It is a hopeful sign for the race that negroes in all sections of the country are throwing the yoke of the Republican party, and acting independently of the Democracy.

THE Republican National Convention will meet, it is intimated, as early as April, next year. The National Committee to name the time and place meets in Washington, November 25.

THE Republicans complain of the "calamity strikers." The workmen should never be ashamed of their work. The "calamity strikers" are a direct growth of Republican "calamity" legislation.

OMAHA, Neb., A Republican city is a Republican city, has just given the world a few new points in negro lynchings. The fact that such a scene was not enacted in the South will be a calamity to some of the Northern strikers.

WHEREVER Governor Campbell comes "McKinley" will be a "free silver." The Major evidently is not proud of his handiwork, and with reason, for it is the meanest thing ever perpetrated on a free people.

"FREE SUGAR" about the Republicans when tanned with the robbery of the taxpayers that is going on under the McKinley bill. Certainly, sugar is "free," but in order to get it "free" the people are forced to pay a bounty of 2 cents a pound out of their pockets.

THE negro voter of the North is about to break away from the control of the Republican party. As comparatively few white men in this part of the country vote the Republican ticket, they will not be much left of that party.

THE Chinese are making it very unpleasant to the missionaries at present. The missionaries are probably come to the conclusion, after passing through a few more riots, that there are no Christians at home who need their services as much as do the Chinese.

THE best sign for the Democracy of Ohio that has yet appeared is the dirty attack that has been made by the Republicans upon Gov. Campbell's financial standing. It shows that they are driven to desperate measures when they drop national and State issues to pry into the Governor's private business.

EVERY poor man and his wife are looking for taking the tax of sugar enables them to buy twenty pounds for the same money that formerly bought fourteen pounds, how much more of the other necessities of life could he had for what they now pay. The bounty to American manufacturers was abolished.

THE Court of Appeals has affirmed a decision against a man for murder who recklessly fired shots into a crowd and killed a man, holding that the man was not lawfully excused, intentionally fired a pistol in a crowd, for his diversion merely to draw the crowd, he is guilty of murder, although he had no design to kill.

THE Republicans of New York are predicting that Faneuil will be elected Mayor. The election is a little earlier this year for campaign purposes, by the Republicans. Look out for campaign lies from this out.

Born the Republican and Democratic managers in Ohio claim that the People's party is about at its rope's end. They say the nomination of Seitz for Governor was too much for the farmers to swallow, and that they are getting back into their old party lines. Of course, the leaders of the People's party pronounce these assertions as grossly untrue. Their favorite resort is to claim that the People's party in Ohio is far in advance of what it was in Kansas this time last year, and then they point to Pfeffer, Simpson and the other products of that election.

An important question, says the Ouseburoh Messenger, is being made in the Circuit Courts of the State. The old law provided for sixteen. The new Constitution allows only twelve. The new Constitution is now in effect, but is this one of the changes that becomes operative at once, or is it necessary that there shall be legislation on the subject of the Circuit Court Judges and lawyers are puzzled and divided on the point. Upon its proper determination in the different districts depends the fate of all judgments that may be returned.

Colonels All In.

Colonel Evans and Colonel Miller have brought suit against Colonel Johnson and Colonel Hood to compel them from publishing and issuing the new Constitution. All the other Kentucky Colonels and their papers are in the same predicament. In reality, it is an action of the Colonels of Kentucky against the people, and if the verdict was to be obtained by them, the people might well feel alarmed.

Stand Up.

In every speech Gov. Campbell makes in the Ohio campaign he calls on any working man whose wages have been raised since the McKinley tariff became a law to "stand up and be counted." He has now gone over the whole State pretty much, everywhere making this proclamation, and no one where has any working man stood up. He calls on McKinley, or any Republican, to tell where or when any working man has had his wages raised. To then offer factory after factory in Ohio where wages have been reduced. His argument is unanswerable.

Have We A New Constitution?

An important case has been filed in the Franklin Circuit Court which is intended to bring at once to an issue and determination the validity of the new Constitution.

The suit is against the Public Printer and the Secretary of State. Hon. Walter Evans, on behalf of himself and other citizens, asks the court, on the ground that the new Constitution is unconstitutional, changed the Constitution vote on and adopted by the people, to declare the altered instrument null and of no effect, to perpetually enjoin and restrain the defendants from printing and promulgating the same, and compel them to bring the official signed copy of the Constitution into court that it may be destroyed. Plaintiffs have their right to sue on the grounds that they are citizens and that their rights and property will be injured by the confusion of law which will result from the promulgation of a spurious Constitution. Plaintiffs hope to get a decision from the Circuit Court in about three weeks and to secure early action thereupon by the Court of Appeals.

THE STATE TREASURY AND THE FRANKFORD CASE.

The Frankfort Capital says the statement that the Treasury is empty and that the school teachers of the State can not receive any of their wages, which is generally published by the press, is incorrect. On the first of October Treasurer Hale directed the county clerks to pay the school teachers \$250,013.25, or one-fifth of all that will be due them when their respective terms have closed. It is true that this is but one-half of what should have been paid them, as the full amount is \$500,026.50. On that date, but it is the impression of the officials in charge that before November 1st the Sheriff will have paid into the Treasury a sum sufficient to liquidate the remaining obligations. The amount was the sum of \$100,000 in the Treasury, and this will be added to daily until a very short time the teachers will be paid what they have earned.

THE CONSTITUTION SUIT.

FRANKFORT, KY., Oct. 10.—No steps have yet been taken by the Governor or Attorney-General to answer the suit brought by the Franklin Circuit Court by Col. S. H. Miller and Col. W. H. Evans against Col. E. P. Johnson, Public Printer, and Capt. J. W. Head, Secretary of State, to test the validity of the new Constitution. Attorney General Hendrick does not think that the suit is a test case, but he has prepared, and a number of other distinguished lawyers who do not want to express their opinion, hold that there is nothing new and no advantage in the suit, and that it is a mere trick to delay the issue, which Col. Miller and Col. Evans are concerned. The suit has not been brought against the Attorney-General, and he has no opinion on the subject to make any difference.

AT THIS SESSION OF THE UNITED STATES.

At this session of the United States Congress an effort will be made to secure the release of the Chicago anarchists, Pendergast and Seligman. The suit has been brought against the Attorney-General, and he has no opinion on the subject to make any difference.

CONDITIONS OVERLOOKED.

The protectionist in his argument for McKinley prices will never admit the fact of improved machinery, increased skill and enlarged possibilities generally, but insists upon comparing prices of today with prices in the 1820s, when there was practically no machinery, and giving credit for all advancement of the machinery schemes as McKinley promulgated at the behest of the manufacturers who would be freighted by Harrison.—Buffalo Times.

BRIGHT OUTLOOK IN IOWA.

The advisers from Iowa are to the effect that the Democrats are more than sanguine that they will carry the State this fall. They were never more thoroughly organized, and authentic figures received from near three-fourths of the counties in the State portend victory in November. The conservative plan of the Democrats, with Kinne, candidate for Supreme Judge, close up to the right figure, and then offer factory after factory in Ohio where wages have been reduced. His argument is unanswerable.

HARRISON APPEALS TO DEMOCRATS.

(Washington Special.) The last Congress appropriated about \$200,000 to pay the claim of the Chickasaw and Choctaw Indians. The matter went to the President early in April and he referred it to the Secretary of the Interior. Mr. Noble after examining and revising the case, approved the appropriation and sent it back to the white house.

Mr. Noble concluded that the Chickasaw and Choctaw Indians were entitled to a large sum of money, and he recommended that the President should sign a bill to that effect. The bill was passed by the House and the Senate, and the President signed it. The bill was passed by the House and the Senate, and the President signed it.
